Caution with Wonder Marker and Eraser Pen

Be sure to read package instructions. Never press your quilt top or completed quilt until both products are completely removed. Pat recommends total immersion of your quilt in clear, cool water for at least 15 minutes to completely remove these products from you quilt and batting. Always soak before pressing your quilt or washing with quilt wash.

Classes at MQX**

## PAT'S POINTER\*

### Need a light box for tracing?

Make one in an instant by placing your portable Ott light under your acrylic machine extension table.

### Don't have an Ott light?

Use a battery operated tap light, adjust a goose neck light or use an under cabinet light fixture.

### Don't have a machine extension table?

Use an old storm window, glass refrigerator shelf, or a piece of Plexiglas propped up on 4 soup cans.

To get the first scoop on upcoming classes, new products and new happenings at patfergusonquilts.com,llc

I discovered a great product for storing your quilts when you want to avoid fold lines (like when transporting them to quilt shows or for storing under the bed).

--4"x10' solid triple wall polyethylene pipe--

It can be found at Home Depot and is inexpensive, rigid, easy to cut and very light weight.

Cover first with muslin, roll your quilt with the right side out then cover again with muslin.
