During open studio, this new pattern debut by Pat went very well- already printed up a second batch!

If you have ever said, "I have so many scraps and left-overs that are too good to throw away but I don't know what to do with them," then this is just the pattern for you! Make use of all those "REMAINS" and make a wonderful quilt with different setting options. See 3 quilts made with this fun and easy technique.
